Care Home Commissioning Scrutiny Project

The overarching aim of this project is to ensure residents in Haringey receive high quality care in care home settings (residential and nursing) and that contracts incentivise care homes to provide high quality care. This will be done by looking at Haringey's current care home offer, with consideration given to both the user/carer experience and workforce support and planning.

This piece of work will be scoped in October with evidence gathering taking place during November – January. A final report will be prepared for consideration by the Overview and Scrutiny Committee on 26 March.

Suicide Prevention Plan

- A briefing note, based on the email below from the Centre for Public Scrutiny, was included with the OSC agenda for 17 July 2017

“House of Commons Health Committee Advocates Role for Local Scrutiny of Suicide Prevention Plans

In December 2016, the Health Committee published an interim report on suicide prevention to inform the Government's updated suicide prevention strategy. The Government subsequently published its update to the strategy in the form of a progress report. Witnesses told the Committee's latest inquiry that the underlying strategy is essentially sound but that the key problem lies with inadequate implementation. 95% of local authorities now have a suicide prevention plan, but there is currently little or no information about the quality of those plans.

The Committee noted that there is a role for local scrutiny of implementation of suicide prevention plans in the first instance and considered that this local scrutiny could be a role for health overview and scrutiny committees within local authorities. The Committee has made a recommendation to Government that effective implementation of the suicide prevention plan in local areas should be a key role of health overview and scrutiny committees.”
