

**Requisition for a Deputation to the Full Council meeting
7.00 pm, Wednesday 7th February 2018**

We wish to make representations regarding the NORTHUMBERLAND PARK REGENERATION SCHEME:

PROPOSED MOTION: DEVELOPMENT VEHICLE (HDV)

- Lendlease are an unsuitable partner, following their social cleansing activities at the Heygate estate, we Council tenants know they will not build social housing for the residents of Northumberland Park. Residents feel excluded from regeneration plans – we will be no longer able to live in the place we have called home for many years: there is no future for us or our children here.
- As Leaseholders we have bought our homes in Northumberland Park, invested in making them into lovely homes, brought up our children here, and now have to face moving if the HDV goes ahead. We feel cheated.
- The HDV will demolish our homes, without asking if we want that. LBH has allowed our estates to decline and are using this as a reason to knock them down.
- Not knowing the future is seriously impacting on health and welfare of residents in NP. Even one move could be life threatening to some of our older residents.
- There should be a decisive Yes/No residents' ballot vote on the proposals. This is now Labour Party policy nationally, following the unanimously-supported housing motion proposed by Tottenham Labour Party, as endorsed by Jeremy Corbyn in his leader's speech at the 2017 Labour Party Conference.

Statement of Support

The following residents of the borough support the above application.
